

iPass SmartConnect™ Client for iOS v3.18.0 Release Notes

MAY 2018

New Features and Enhancements

iPass SmartConnect Client for iOS v3.18.0 added the following new features:

- **GDPR (General Data Protection Regulation)**
 - For GDPR compliance, which goes into effect May 25, 2018, we updated the iPass SmartConnect privacy policy and T&C (terms and conditions).
- **Curation**
 - Improved curation of open networks. This will result in curation of added hotspots into iPass network and will provide customers the added convenience of seamlessly connecting to Wi-Fi.
- **User Experience and Client Responsiveness**
 - Numerous improvements to enhance user experience, increase client app responsiveness and reduce failure modes while communicating with the iPass SmartConnect cloud platform. This applies during all phases of iPass SmartConnect usage including device activation, Wi-Fi logon and ongoing usage.
- **802.1X Onboarding User Flow**
 - Clarified and improved the user interface for adding 802.1X network profiles to their device. New UI dialogs guide users through this process, since it requires exiting the iPass SmartConnect app and going to system settings.
- **Reporting**
 - Enhanced consistency and accuracy of data collection, logging and reporting across all iPass SmartConnect client devices. Will result in better, more accurate and more consistent reports for iPass SmartConnect admins that will provide consistent information from all client platforms and devices.
- **Troubleshooting**
 - Enhanced accuracy and consistency of device logs across platforms. This will result in easier diagnosing and troubleshooting of user issues.

System Requirements

iPass 3.18.0 for iOS has the following requirements:

- iOS 9.0 or later
- iOS multitasking support. Examples: iPhone 5 or later, iPod Touch third generation or later, or iPad second generation or later
- Users need an iPass account in order for the service to function as well as be connected to the Internet (by Wi-Fi or Mobile Broadband) to activate iPass

Supported Languages

iPass is available in English, Simplified Chinese, Traditional Chinese, French, German, Italian, Japanese, Korean, Brazilian Portuguese, Russian, Spanish, and Thai.
